MY MOTHER.

Oh! how I loved her! though my heart
At times resisted her control;
In every dearest wish and thought
She reigned the idol of my soul.
I grew beside her, year by year,
Graceful, *she said*, and fair and tall—
Her words were to me sweet and dear,
And memory's leaf retains them all.

Oh! *how I loved her!* soft her smile
Shone all along the flowery way
O'er which I bounded on, the while,
Thoughtless of death or of decay.
Her bosom was my place of rest,
Her arms my refuge sure and dear;
Her voice could always soothe me best,
Her kiss could banish grief and fear.

Oh! how I loved her! heart to heart
And hand to hand she bore me on,
Guarding me from life's every smart,
Until her own young life was gone.
One day she drew me to her breast—
Her cheeks were white, her look was wild,
Pale lips to mine she fondly pressed,
And whispered, "We must part, my child!"

Her words went crashing through my brain,
Went cleaving through my quiv'ring heart;
And then with death in every vein,
Throb'd that dread sentence, "*We must part.*"
Oh! bitterest grief of childhood's years!
Oh! hour of blackness, wrath and death!
Bitterly drenched and choked with tears,
Wild with vain cries and pleading breath.

My mother's presence was to me
Like sunshine in a dreary land;
What cooling water springs would be
To one on Afric's burning sand.
Oh! how I loved her! love her yet—
Though from her grave a wanderer far,
My mother I do not forget;
Her love is still my guiding star.

I long for her and love her now,
When childhood, youth and hope are fled,
As when her kisses warmed my brow,
As when she held my youthful head.
And when the earth is heaped above
My head, and o'er my heart is piled,
If spirits live and spirits love,
My mother shall embrace her child!

Select Miscellany.

The Englishman's Snuff Box.

The French papers have not, under the influence of the alliance, ceased to have their jokes upon Englishmen, and one of the drollest is told as follows, by the *Union Bretonue*, from which we translate it:

Lord C——, well known for his eccentricities, went lately to the establishment of one of our most celebrated workers in fancy articles.

"I want you to make me," said he, "a snuff box, with a view of my chateau on the lid."

"It is very easily done," was the reply, "if my lord will furnish me with the design."

"I will; but I want also, at the entrance of my chateau, a niche in which there shall be a dog."

"That, too, shall be provided," answered the workman.

"But I want also that some means should be contrived by which, as soon as any one looks at the dog, he shall go back into the nich, and only reappear when he is no longer looked at."

The workman looked inquiringly, as if to ascertain whether his customer was not the victim of some mystification. Re-assured by his examination, and, like a clever man, understanding how to take advantage of the affair, he said to the Englishman:

"What you ask of me is very hard to comply with; such a snuff-box will be very expensive; it will cost a thousand crowns."

"Very well; I will pay you a thousand crowns."

"Then, my lord, it shall be made according to your wishes, and in a month I shall have the honor of delivering it to you."

A month later the workman presented himself to Lord C——.

"My lord," said the workman, "here is your snuff-box."

Lord C—— took it, examined it, and said, "That is my chateau, with its turrets, and there is a niche by the doorway. But I see no dog."

"Did not your lordship," said the workman, "say that you wished the dog to disappear when he was looked at?"

"I did," replied his lordship.

"And that he should appear when no longer looked at?"

"That is true also," was the reply.

"Well," said the workman, "you are looking at it, and the dog has gone into the niche. Put the box into your pocket, and the dog will re-appear immediately."

Lord C—— reflected a moment, and then exclaimed, "All right, all right."—He put the box in his pocket, took out of his pocket-book three bank-bills of a thousand francs each, and handed them to the skillful workman.

A SPIRITED BOY.—A mile or so from town, a man met a boy on horseback, crying with cold. "Why don't you get off and lead the horse?" said the man, "that's the way to get warm." "It's a b-borrowed horse, and I'll ride him if I freeze."

Three Persons Killed by a Dog.

A French newspaper, the *Journal de Chartres*, relates a terrible affair. As a little girl, ten years of age, was walking by the side of a road at Bonneval, she was suddenly attacked by an enormous mastiff, a stranger to the village, and before her father, who was near, could arrive, the dog, throwing the child down, bit off her nose and tore the flesh from her cheeks, arms and other parts of her person. Driven away by the man, the dog, a little further on, attacked a boy, and tore his face in a frightful manner. The animal next attacked in succession several dogs and bit them severely. It then entered a wood-near Tieuvicq, in which a woman was at work, and rushing on her, threw her down and lacerated her dreadfully. The flesh was torn from different parts of her person, leaving the bones bare, her scalp was dragged, off, and her nose and cheeks were eaten. A man coming up, the animal took to flight, but afterwards attacked, at Luthon, a workman, and bit him badly in the face and body. Next the dog entered Authon, and rushing in succession on four children—one the son of a physician named Perier—tore the flesh from their faces and persons, and bit a woman and servant girl. The whole population of the town was plunged into consternation; but as night had set in the dog disappeared.—The next morning a number of persons, armed with guns, forks and scythes, went in search of the animal, and having, after a while, found it, succeeded in shooting it dead. On examination it turned out that the animal was not mad, but had a long sharp nail driven into its nose; and the belief is that the pain which the nail caused, rendered him furious. Of these ten persons attacked three are already dead, and some of the others are so fearfully injured that their recovery is not probable. Although the animal was not mad, the persons bitten have, by way of precaution, had their wounds cauterized, and the dogs bitten have been killed.

☞ In either 1845 or 1846, Henry Clay became embarrassed to such an extent that he had to mortgage Ashland.—In the meantime, a movement had been started in New Orleans by some of Mr. Clay's friends, to pay his debts and relieve him from his embarrassments, and Mr. A. H. Trotter, the agent of the Northern Bank in New Orleans, was sent east to confer with Mr. Clay's friends. The consequence was that about $50,000 was subscribed, and the Hon. Wm. Pennington was sent to Kentucky with the money, and reached Lexington known to scarcely any person. He walked into the Northern Bank, and asked for Mr. Scott, the Cashier of the Bank, and upon being shown that gentleman, asked if there were not several notes of Mr. Clay's that were due in a few days, and was answered that there were. Mr. Scott was requested to give the whole amount of Mr. Clay's indebtedness, which was done, and a draft on one of the New York banks was handed him, and Mr. Pennington left the bank with all Mr. Clay's notes paid. In a few days Mr. Clay came to town to arrange for a renewal of the notes, if possible, and was shown in the side room of the bank. After sitting a few minutes, he asked Mr. Scott if there could be any arrangement to run the notes for a longer time. Mr. Scott looked at Mr. Clay to see if he was jesting, and finding that he was not, told him that a gentleman from New Jersey had called yesterday and paid all of his indebtedness. Mr. Clay started when Mr. Scott spoke, looked at him a few seconds, burst into tears, and left the bank overwhelmed. No man ever had such friends. Where Mr. Clay lived, his personal friends are rejoiced that Wm. Pennington has been honored with the Speakership.

Facts about Milk.

Cream cannot rise through a great depth of milk. If, therefore, milk is desired to retain its cream for a time, it should be put into a deep narrow dish; and if it be desired to free it most completely of cream, it should be poured into a broad flat dish, not much exceeding one inch in depth. The evolution of cream is faciliated by a rise and retarded by a depression of temperature. At the usual temperature of the dairy—forty degrees of Fahrenheit—all the cream will probably rise in thirty-six hours; but at seventy degrees it will perhaps rise in half that time; and when the milk is kept near the freezing point, the cream will rise very slowly, because it becomes solidified. In wet and cold weather the milk is less rich than in dry and warm, and on this account more cheese is obtained in cold than in warm, though not in thundery weather. The season has its effects. The milk in spring is supposed to be the best for drinking, hence it would be the best for calves; in summer it is best suited for cheese, and in autumn the butter keeping is better than that in summer—the cows less frequently milked, give richer milk and consequently more butter. The morning's milk is richer than the evening's. The last drawn milk of each milking, at all times and seasons, is richer than the first drawn, which is the poorest.

Thales, the Milesian.

A sophist wishing to ridicule Thales, the Milesian, one of the wise men of Greece, proposed to him in rapid succession, these difficult questions. The Philosopher replied to them all, without the least hesitation and with how much propriety the reader can judge for himself:

What is the oldest of all things?
God, because he always existed.
What is the most beautiful?
The World, because it is the work of God.
What is the greatest of all things?
Space, because it contains all that is created.
What is the quickest of all things?
Thought, because in a moment it can fly to the end of the universe.
What is the strongest?
Necessity, because it makes men face all the dangers of life.
What is the most difficult?
To know thyself.
What is the most constant of all things?
Hope, because it still remains with man, after he has lost everything else.

A Happy Rebuke.

Watty Morrison, a Scotch Clergyman, was a man of great wit and humor. On one occasion he entreated the officer at Fort George to pardon a poor fellow that was sent to the halberts. The officer offered to grant his request if he would in return, grant him the first favor he would ask. Mr. Morrison agreed to this, and the officer immediately demanded that the ceremony of baptism should be performed on a puppy. The clergyman agreed to it, and a party of gentlemen assembled to witness the novel baptism. Mr. Morrison desired the officer to hold up the dog, as was necessary in the baptism of children, and said:

"As I am a minister of the Church of Scotland, I must proceed according to the ceremonies of the Church."

"Certainly," said the major, "I expect all the ceremony."

"Well, then, major, I begin by the usual question; Do you acknowledge yourself the father of this puppy?"

A roar of laughter burst from the crowd, and the officer threw the candidate for baptism away.

LOVELINESS.—What constitutes true loveliness? Not the polished brow, the gaudy dress, nor the show and parade of lashionable life. A woman may have all the outward marks of beauty, and yet not possess a lovely temperament. It is the benevolent disposition, the kind acts and the Christian deportment. It is in the heart, where meekness, truth, affection and humility are found, where we look for loveliness, nor do we look in vain.—The woman that can soothe the aching heart, smooth the wrinkled brow, alleviate the anguish of the mind, and pour the balm of consolation in the wounded breast, possesses in an eminent degree, true loveliness of character. She is the real companion of man, and does the work of an angel. It is such a character that blesses with warmth and sunshine, and maketh earth to resemble the Paradise of God.

☞ A Lady was told the other day, by a traveling gentleman, that every lady who had a small mouth was provided with a husband by the Government.

"Ith it pothibul?" said the lady, making her mouth as little as she could.

The gentleman added "that if she had a large mouth she was provided with two husbands."

"My gracious!" exclaimed the lady, at the same time throwing her mouth open to its full extent.

The gentleman became alarmed, made his escape, and has not been heard from since.

☞ A tall, slab-sided Yankee, who was making his appearance at Cape May, last summer, strolled down to the beach during bathing time. On seeing the bevy of beauties disporting in the waves, he burst into a fit of enthusiasm.

"Je-ru-sa-lem! if that don't jest remind me of something good tew home."

"What is that?" asked a friend who heard him.

"What is it?" said Jonathan smacking his lips; "lasses in water."

☞ A military officer seeing a negro whom he knew, exclaimed: "Ah, Sambo, you are an honest, faithful fellow. I will give you a drink."

"With all my heart, sah," said Sambo, "with all dis child's heart. Some niggers are haughty and proud, and won't stoop to drink with a milishy ossifer, but dat's wrong. I tink a milichitary ossifer ebery bit as good as a nigger—'specially when a nigger is thirsty."

☞ Professor B., the eminent electrician, was traveling lately in the cars, when a man came up and asked him for his fare.

"Who are you?" said B.

"I? my name is Wood, and I am the conductor."

"Oh," said the professor, very quietly, "that can't be, for wood is a non-conductor."

Washington National Monument

Our readers will remember that during last fall a plan was originated to raise the means necessary to complete the Washington National Monument, by requesting the Postmasters throughout the United States to put up boxes within their respective offices, in order to afford the citizens in every part of the country the opportunity, at any time, to make voluntary contributions for the completion of the Monument.

The plan has been in operation about four months, and returns have been received from 841 places, leaving 28,000 places to be heard from. The aggregate amount received is $2,240 81. If the post masters of the places not heard from would co-operate with the others, and with as favorable an average result, the annual fund would be more than two hundred and twenty-five thousand dollars. To keep the work in fair progression $45,000 a year would suffice, which would require an average return of $1,50 a year, or 12½ cents per month, from each town.

A SHOT FROM MEXICO.—Important news is received from the Rio Grande.—The United States troops at Brownsville had been fired upon from the Mexican side of the river, and one man was dangerously wounded. Col. Ford returned the fire, and then crossed the stream in pursuit of the enemy. The American steamer Ranchero has also been fired upon by the Mexicans, at a point thirty miles above Brownsville. War was considered inevitable.

OPPOSITION STATE CONVENTION.—We learn, just previous to going to press, this (Wednesday) evening, that no organization has yet been effected in the Opposition State Convenion, now in session at Harrisburg. Alex. Jordon was appointed temporary Chairman. The Convention was to meet again at 4 o'clock this afternoon. We do not expect anything definite before to-morrow evening.

Letter from Harrisburg.

Correspondence of the Tribune.

HARRISBURG, Feb. 21, 1860.

Gentlemen :—Legislation to-day is in the vocative—a secondary consideration—the Gubernatorial nomination to be made to-morrow being a sort of Aaron's rod which for the time being has swallowed up every other question, no matter how momentous. The candidates, their friends, the delegates, and the disinterested lookers on have already filled the hotels to their utmost capacity; indeed I doubt if there ever was a much larger crowd congregated here to attend a Convention. Every body is at work, button-holing, canvassing, wire-working, and scheming, plotting, and counter-plotting. Of course the time for the meeting of the Convention is so close at hand that I will not commit myself by making vague speculations, but I believe that the paper which publishes this will also announce by telegraph the nomination of Mr. Curtin. This is *my* belief, and yet who knows what a day may bring forth? In politics, as in every thing else, "there's many a slip 'twixt the cup and lip." A few hours will settle the question,

Yesterday Mr. Bell introduced into the Senate a joint resolution for an amendment to the Constitution, which contemplates the appointment of the Judges of the Supreme Court by the Governor, instead of electing them by the people. This may look like retrograding, but I think that the law providing for the election of the Judiciary was carrying things a little too far, and people begin to see it. Of all other co-ordinate branches of the Government, the Judiciary should be free from the contaminating influences of the dirty slough of politics.

It appears that the people "over the hill" are somewhat exercised on the subject of the removal of the county seat from their town to your town, and a number of letters of inquiry on the subject have been received here. No such bill has been presented, and I can not ascertain that it is the intention of any person to present such a bill, so that the people of the South side need not give themselves any unnecessary trouble.—The removal might be of some little advantage to the property-holders of Altoona, inasmuch as it might enhance the value of real estate, but it would so work to the disadvantage of renters or tenants, that they, above all, should kick against any such move.

The bill extending jurisdiction to Justices of the Peace in the trial of certain petty cases, has passed the House, and will, in all probability, pass the Senate—the counties embraced in it being so few that it will pass more as an experiment than a faith in its practicability. If it is a failure, it will be speedily repealed, and the bill no longer come up as an annual. If it is a success, its provisions will be extended to all the counties in the Commonwealth—every one of which is taxed to an enormous extent by petty litigation. There are some eight counties named in the bill, of which Blair is one.

Master Plummer, of Tyrone City, will deliver a lecture on Temperance in the Hall of the House this evening, the proceeds to go toward educating his brother, who was maimed by the premature discharge of a cannon at the Hollidaysburg encampment, in 1858. The object is certainly a laudable one, and from present indications I should say that he will have a good audience, a large number of tickets having already been disposed of.

Mr. Strong last week read in place a supplement to the Sunbury and Erie Railroad, which provides for a stay of execution against the Company on their bonds, until the completion of their road. The interest on the first is due in May, and the Company being unable to make a raise on their bonds to meet it, beg for time. The Legislature will have to grant it, or lose largely. Yours, LOGAN.

PITTSBURGH FEMALE COLLEGE.—This school, although now only in the fourth year of its existence, has attained a reputation second to no institution of the kind in the country. As an evidence of its prosperity, and the high estimation in which it is held by those who are acquainted with the persons who have it in charge, it is only necessary to state that there were 188 pupils in attendance last year. The building is commodious and convenient, costing upwards of $30,000. Those of our citizens who intend sending their daughters to school, should by all means take this College into consideration.—We copy the following notice from the Pittsburgh *True Press* :—

The next session of this excellent institution will commence on the 28th of March, instead of the 21st, as heretofore. This change is but temporary, and will not affect the length of the session, which will close one week later. Mr. Pershing, the President elect, will then enter upon the discharge of his duties—and we may here remark that, from the high opinion everywhere expressed, by the press and otherwise, in reference to the character and qualifications of this gentleman, the advantages of the institution cannot fail to be fully maintained, if they are not considerably enhanced. Nearly nine thousand dollars have recently been contributed by responsible persons in the city, to meet the indebtedness of the college, and this amount will soon be increased to ten thousand. When the latter sum is raised, important additions will be made in the way of apparatus, cabinet, library, etc.

A large number of new pupils will be enrolled next session, and those at a distance who intend to enter would do well to give early notice, as but a limited number of boarders will be received.

SHOCKING OCCURRENCE.—Mr. L. T. Rhatt, and old and respected citizen of Murderkiln Hundred, Sessex county, Del., who was heavily engaged in the grain business, had occasion, on the 14th inst., says the Delaware *Gazette*, to enter his granery, which was empty at the time. The door closed with a spring-lock, and secured the unfortunate man, who was sought, in vain by his family, until the 21st, when the granary was opened, and it was ascertained that he had starved to death.

In our opinion the above is the *Longest-Tailed Rhatt* story we have come across for some time. The location of the occurrence and the business of the unfortunate victim are decidedly rhattish. The editor of the *Gazette* deserves a *rat*-taning.

☞ *Godey's Lady's Book* is emphatically not only a luxury, but a necessity.—The March number, now before us, fully proves this. It is now thirty years since the Book was started, and the fact that its list of readers has constantly increased since that time, is the best evidence of its virtue. No lady should be without it, and no lady will be without it, if she once tries it for a year. Price $3 per annum.

Annual Report of the Pennsylvania Rail Road Company.

OFFICE OF THE PENN'A R. R. CO.,
PHILADELPHIA, Feb. 6, 1860.

To the Stockholders of the Penn'a R. R. Co.:

In obedience to the requirements of the Charter of the Company, your Board of Directors submit their report of the operation of your road during the past year, and the condition of the Company at its close.

The recovery of the manufacturing and agricultural interests of the country from the consequences of the financial revulsion of 1857, and the failure of the cereal crops of the West for that as well as the preceding year has necessarily been slow.

Under these circumstances, we would scarcely have hoped for any material increase in the traffic of the road during the year 1859. The increased business has, however, been steady, and exhibits a general improvement in the sources from whence the revenue of the Company is derived.

The earnings from freight, owing to the extreme low rates obtained during a considerable portion of the year, consequent on the competition between the New York and Central Rail Road and the transporters on the Erie canal, do not correspond with the increased tonnage of the road.

The following condensed statement exhibits the results of the operations of your road for the year 1859 :—

Earnings of the Company from the business of the Road :		
From Passengers,	$1,420,912 43	
" U. S. Mails,	74,485 00	
" Expresses,	75,129 00	
" Freights,	3,666,111 15	
" Miscellaneous sources,	135,728 63	
		$5,362,355 21
Expenses of operating the Road were :—		
Cost of conducting Transportation,	$1,333,041 00	
" Motive Power,	864,076 92	
" Maintenance of Road,	671,100 19	
" Maintenance of Cars,	190,278 34	
" General Expenses,	72,241 70	
	$3,130,738 15	
Net earnings of the Road,	$2,231,617 06	

The earnings of this Road, as compared with those of the preceding year, give an increase of $177,024 53.

The increased earnings for first class passengers amount to $73,355 99, while the earnings from the emigrant business show a decrease of $24,681 71; leaving as the increase from the whole passenger traffic the sum of $48,674 28. This increase was mainly derived from the local travel upon the road, and is due to the increased facilities afforded for this character of business. The Philadelphia Division shows an increase equivalent to a passage over the whole Division of from 169,370 in 1858, to 196,488 in 1859, and on the main line of the Harrisburg and Lancaster Road from 109,481 in 1858, to 124,244 in 1859, notwithstanding the competition between Harrisburg and Philadelphia, by the Philadelphia and Reading Railroad and its Lebanon Valley Branch.

The whole number of passengers transported by the Company during the year was 1,459,110, and the number of miles travelled amounted to 54,839,691, or an average 37½ miles per passenger. It affords much gratification to the Board to renew the statement, made in the last annual report, that notwithstanding the large number of passengers carried over the road not a single life has been lost.

The freight earnings for the year amounted to the sum of $119,904 94 more than was derived from this source in 1858. The increase of the freight earnings is entirely due to the local business, exceeding that of 1858 the amount of 110,937 tons, while the through freight, amounting in all to 238,606 tons, was only increased 12,896 tons.

The whole tonnage moved upon the road during 1859 was 1,170,240 tons, exclusive of 70,875 tons of wood, coal, lumber, &c., for the use of the Company. Embraced in the foregoing tonnage there were transported in the Cars of the Company 210,903 tons of coal, and of the same article 210,722 tons in cars of individuals, making the entire movement of coal 421,625 tons, and an increase in this traffic over the preceding year of 81,087 tons. The amount of coal delivered in Pittsburg during the last year (all in cars other than those of the Company) was 100,302 tons, varying but little from the amount for the year 1858.

For more full and precise information in regard to the earnings and expenses of the road, the kind and amount of tonnage, and for numerous and interesting details, the stockholders are respectfully referred to the ample tabular statement from the Controller and Auditor, which will be found appended to this report.

The funds furnished to the Trustees of the Sinking Fund have been invested by them in the shares of the Cumberland Valley Railroad Company, and to the amount of more than one-half of the capital stock of the Company. This investment, while it yields a full interest upon the outlay, protects the business of the Company from the undue influence of other interests.

The roadway has not only been maintained in complete order during the year, but it has passed the period at which railways usually attain their maximum cost for "maintenance of way." Owing, however, to the quality of iron used in its construction, the Pennsylvania Rail Road has just reached that point. The amount of iron supplied for repairs during the year, is equivalent to fifty miles of track, which, with the present extent of line, is about the quantity that will be annually required to keep the road in good condition. A lower rate of speed for both passenger and freight trains could materially lessen the wear of the rails and machinery, and effect important savings in the cost of working the road in nearly every department.

To attain high speeds, heavy and powerful locomotives must be used, and additional safeguards are required to compensate the increased risk involved. The destructive effects of these heavy machines, moving at high velocities, can be readily appreciated by any one, and it is therefore a matter of surprise that railway managers should persist in this practice. This Company cannot, however, reduce the speed of its trains, or advance its through rates and retain its customers, while its chief competitors continue to insist upon an adverse policy.

The earnings of the Canals owned by the Company, for the year 1859, were :—

From the Eastern Division,	$152,871 23
" Juniata Division,	26,324 49
" Western Division,	15,514 04
" Miscellaneous receipts,	2,939 62
	$197,649 38
The expenses of maintaining the canal for the same period were as follows :—	
For repairs, renewals and enlargement,	$149,105 07
For superintendence, collectors, lock tenders, weigh-masters, stationery, etc.,	35,347 31
	$175,452 38
Leaving net earnings of the canals,	$22,097 62

The increase in the canal revenues over 1858 was $18,449 30, and the increased expenditures were $51,394 07, embracing the sum of $24,394 79 expended in the re-erection of a bridge over the Susquehanna river at Clark's Ferry, which had been blown down by a severe storm, and also an expenditure of about $8,000, incurred for steam towage, rendered necessary in consequence of the destruction of the bridge. The remaining portion of the increase of expenses was incurred in deepening and enlarging the capacity of the Eastern Division of the Canal.

The amount of coal transported on the Canals of the Company during the year 1859 was 515,366 tons, being an increase over the preceding year of 103,634 tons, and the amount of lumber transported was increased from 95,770,458 feet in 1858, to 120,074,675 feet in 1859, giving an average increase of tonnage of about twenty-five per cent. The gross revenue of the Canals, was not, however, increased in the same ratio as the tonnage, owing to a reduction of tolls rendered necessary in order to retain this traffic in its customary channel.

The enlargement of the Susquehanna and Wyoming Canals, which it is understood will be effected before the opening of navigation in the ensuing spring, will so reduce the cost of transportation on the whole line as to allow a restoration of the tolls to their former limit. It has been the policy of this Company (contrary to public expectation) to cultivate the trade upon their canals and develope the resources of the country contiguous to them, in order, if possible, to render them productive property.

These Canals were received from the Commonwealth in a very dilapidated condition; the prism of the canal being so reduced as to scarcely afford more than a depth of three feet of water throughout. The condition of these works render it impracticable for those engaged in transportation on them to contend successfully with the railways for the traffic of the country traversed, and the consequence was, at the time the Company received possession of them, their trade was gradually declining.

Upon the Eastern Division the depth of water has been increased to a minimum of five feet, and the other divisions of the works, where any trade of importance was to be accommodated, have been restored to their original capacity.—No portion of these Canals, except the Eastern division, (of 46 miles in length) is self-sustaining; but it is hoped that the Juniata Division, as far west as Huntingdon, may ultimately be made to produce some net revenue.

The management of the entire line of Canals has been placed under Thomas T. Wireman, Esq., Civil Engineer, who has conducted the affairs in this branch of the Company's service with commendable judgment and economy.

It will be seen from the statement of the Treasurer, annexed to this report, that there has been received from Shareholders, in payment for the Capital Stock of the Company, up to January 1, 1860: $12,249,125 00
And from loans, &c., 9,307,038 32

There has been charged to construction and shipment account, for the past year, the sum of $758,547 26, which has been expended in completing the second track from Pittsburgh to Lockport, and Johnstown, in Cambria county, to Barre, in Huntingdon county, leaving a space of 16½ miles to be filled up between Lockport and Johnstown, and of 55 9-10 between Barre and Harrisburg, in all 72 4-10 miles, to complete a line of double track for the entire length of your road. Other portions of this expenditure have been made in extensions of the shops at Pittsburgh and Altoona; the constructions of sidings, warehouses and passenger stations on the line of the Philadelphia Division, (Philadelphia and Columbia Railroad,) and in the increase of our car equipment; details of all which will be found in the statement marked B. hereto appended.

These expenditures have in part been met, as well as a payment to the State of $100,000 on account of the Main Line purchase, by an increase of the funded debt of the Company—the remainder, after providing for the payments due to the Sinking Fund, having been contributed from the profits of the Road.

The erection of a passenger station at Pittsburgh and one at Lancaster, a warehouse at Johnstown, and the extension of the second track from Barree to Petersburg or Huntingdon, as also the cost of reaching a Delaware terminus, will require an expenditure to be provided for in 1860.

The practical working of the road since the purchase of the Philadelphia Division has demonstrated the importance of a change in the distribution of the motive power of the line, which will render necessary the enlargement of the accommodations for it at Harrisburg, and throw out of use the intermediate shops. It is estimated by the General Superintendent that the cost resulting from such an arrangement (and by which the road can be operated in three divisions) would be fully covered by the saving effected in the motive power and transportation departments in a single year.

The Pittsburgh, Fort Wayne and Chicago Railroad Company, which from time to time received pecuniary aid from this Company, has been in operation from Pittsburgh to Chicago during the entire year 1859. Its increased revenues during the period, over those of the preceding year, when we consider the depressed condition of the trade of the northwest, should be deemed quite satisfactory. Had the older portion of the road and machinery been maintained in good, effective condition, the net results upon that road would have been such as to restore confidence in the enterprise. The heavy expenditures on these accounts, however, left but a small amount to be applied to the liquidation of the floating debt, and to meet the advances required for the extension of the line.

This floating debt consisted chiefly of the aggregate of that of the three Companies composing the consolidated line, which at the time of consolidation was much larger than prudence justified. It was carried mainly by hypothecation of its bonds. The protection of these bonds from sacrifice has been the chief difficulty encountered in arranging the indebtedness of that Company.

Under the belief that the floating debt creditors received too much consideration from the Directors, to the injury of the mortgage bondholders, the latter applied to the United States District Court for the appointment of a Receiver. This proceeding was concurred in by the Board of Directors, after a change in the officer was agreed upon, and the decree of the Court so arranged as to equitably protect all the interests involved. This decree of the Court protects, as far as practicable, the interests of the Pennsylvania Railroad Company, while it relieves the working of the road from vexatious interruptions from its creditors.

It has been the policy of your Board to seek an increase of traffic by securing freight destined to any part of the world, in all cases when they believed they could add to the profits of the shareholders, while they have, with equal care, sought to protect the manufacturing and commercial interests of Philadelphia, whose means have been so liberally embarked in the enterprise, by such differences in her favor in the rates of freight, as were due to the shorter distance it was to be transported to and from the West. More than this could scarcely be asked of this Company, and more, if demanded, would not be permitted by the competing lines of transportation between the East and the West. During the past year the New York Central Railroad Company, in an unreasonable (if sincere) effort to bring the rates to and from New York to the same level with those of Philadelphia and Baltimore, sacrificed hundreds of thousands of dollars to herself and rivals, without attaining her object, beyond temporarily destroying the uniformity of these differences in rates.

It is with feelings of regret that the Board have to record the decease, during the past year, of Benjamin T. Curtis, Esq., elected a Director to represent the interests of the city of Philadelphia. Always prompt, courteous and affable in the performance of his duties, he won for himself the confidence and esteem of his colleagues.

Your Board of Directors refer you to the accompanying report of the General Superintendent, and to those at the heads of other departments of the Company's service, as containing much valuable detailed information—quite too voluminous to be embodied in this report.

In conclusion, it is with great pleasure that the Directors record their appreciation of the skill, zeal, and fidelity of the officers to whom the details of the management of the road and canals is more immediately confided.

By order of the Board.

WORMS! WORMS!

Various theories have been started relative to the origin of intestinal worms, and yet the question is still a vexed one among medical authorities. Of one fact, however, all are informed, and in which all agree—the fatal nature of the influence they exert on children. At this season of the year, the attacks of worms are most frequent as well as most dangerous. We take great pleasure in directing the attention of parents to the Vermifuge of Dr. M'Lane, prepared by Fleming Bros., Pittsburgh. It is one of the most extraordinary medicines ever introduced to the public, and has never failed of success when tried

FITS! WHY PROMINENT.

For a long time there was a a paragraph making its regular weekly appearance in our columns, with the brief, but emphatic words "Fits! Fits!" always at the head, to some an offensive caption, but not so to the benevolent and humane, who could sympathize in the sorrows of others. Some persons are shocked at any indication of disease and are even thrown into nervous excitement on witnessing a hearse or coffin. Such are to be pitied. We should always strive to look disease and even death in the face with calmness, and especially take every opportunity for alleviating disease.—Viewed in this light, the advertisements of S. S. Hance, of 108 Baltimore street, Baltimore, Md., possess a certain interest, and those who know of any one suffering from Epilepsy, Spasms, or Fits of any kind, should feel it a pleasure to cut out his advertisement, or in some other way send word to the afflicted of the great value of his remedies. They can be sent to any part of the country by mail. Price, $3 per box. Two, $5. Twelve, $24.

☞ "OH THAT THE SKIN of an innocent sheep should be made into parchment, and written on to the undoing of a man!" quoth Shakspeare. He might also have deplored the ruining of men's forms by the uncouth manner in which some ungracious tailors butcher up the cloth made from the wool grown by these same harmless sheep. To see the perfection of the art of working up cloth wisely and well, and so as to set off to the best advantage the forms of its wearers, call at the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chestnut St., above Sixth, Phila. and examine their stock of garments for gentlemen and youths.

TOOTHACHE.

This disease can be cured by *Dr. Keyser's Toothache Remedy*: prepared by him in Pittsburg, Pa., which is put up in bottles and sold at 25 cents each. *This name should have been printed Daniel R. Good. In consequence of the name being wrongly printed, many did not vote this ticket. Those marked (D) and (P) were the regular nominees of the Democratic and Peoples' Parties. Those marked (I) were independent.

About ten o'clock the triumphant party kindled a large bonfire in front of the "Altoona House," and had a jolly time generally.

P. S.—We were not elected, consequently we didn't "mix in."

PRESENTATION.—A number of the employees in the Altoona workshops of the Penn'a R. R., met at the saloon of F. Nothwang, on the 14th inst., agreeably to previous arrangement, to present to Mr. Paul Buckwalter, late Assistant Foreman, a testimonial of their esteem for him as a man. Mr. B. having been notified of the time and place, was present, and was addressed by one of the Employees as follows:—

Mr. Buckwalter—It is with pleasure I meet you again, in union of good fellowship, with this body of fellow workmen, who have been your companions in the Altoona work-shops of the Penn'a R. R. Co., for several years, as fellow journeyman. and as one of the foremen over them, during which time you have gained their confidence and esteem; not only as a man of true feeling, but of strict justice and integrity in all your dealings with them. They, regretting your resignation from your late foremanship over them, have determined to present you, this evening, with a token of their regard and good will in the shape of a gold watch, which I present to you, and which, I doubt not, you will receive with pleasure, it being a present not only valuable, but a trinket pleasant to view. By reference to its face you may regulate your time, and it will also be a token of times gone by, and will give rise to pleasant thoughts during your travels through life. It will be your monitor to induce you hereafter to, follow in the same path of rectitude, in your actions and dealings with your fellow-workmen, in whatever capacity you may be placed, that has won for you the esteem of those by whom you are now surrounded. In conclusion, I wish you success in all your future undertakings, and hope that the link which has bound you to us all may never be broken. May we meet often in the union of good-fellowship, and may God and mankind make your future life happy and pleasant.

Mr. Buckwalter, on receiving the watch, replied with feeling, saying that it was more than he expected that he had gained the good will of those with whom he had been associated during the time of his employment by the Penn'a R. R. Co., at Altoona, he would cherish the token presented, not for its value, but for the good will and feeling toward him, represented by it, of the donors.

HENDERSON WHITE,
WILLIAM WARE,
JOHN WHITE, } *Committee on Presentation.*

THE 22D.—Yesterday was the anniversary of the birth-day of Gen. Washington. The Altoona Guards and Logan Rifle Rangers turned out in the afternoon and paraded through the town, making a fine display.

DON'T DO IT, GIRLS.—We find the following advice to girls in our exchanges, and copy it for the benefit of the feminines of this region: There is a practice, quite prevalent among young ladies of the present day, which we are old-fashioned enough to consider very improper. We allude to their giving daguerreotypes of themselves to young men who are merely acquaintances. We consider it indelicate in the highest degree. We are astonished that any young girl should hold herself so cheap as this. With an accepted lover it is of course all right. Even in this case the likeness should be returned, if the engagement should by any misunderstanding cease. If this little paragraph should meet the eye of any young girl about to give her daguerreotype to a gentleman acquaintance, let her know that the remarks made by young men when together, concerning what is perhaps on her part but a piece of ignorance or imprudence, would, if she heard them, cause her cheeks to crimson with shame and anger.

THE VALUE OF GOOD LUNGS.—We advise our readers who are desirous of preserving the usefulness of the lungs and bronchial apparatus not to defer taking medicine in time for their cure. Most of the consumptive cases which end fatally, are the result of a small beginning of a cough or cold, which could easily be removed by a bottle of Dr. Keyser's Pectoral Syrup, now put up and sold at 50 cts. and $1 per bottle. It has had abundant evidence of its vast superiority over most other remedies, and those who resort to it in time will save a great deal of suffering from those disagreeable diseases which are so prevalent during the winter and spring months. You can get it at Dr. Keyser's Drug Store, No. 140 Wood street. For sale by G. W. Kessler.

PICTURE GALLERY.—W. H. Amey, of Harrisburg, would respectfully inform the citizens of Altoona and vicinity that he has taken the picture gallery of Mr. Clabaugh, in this place, where he is located permanently, and hopes by strict attention to business to merit the patronage of the public.

Pictures of all the latest styles made at short notice, warranted durable, at prices to suit the times.

A fine assortment of cases on hand.
Orders taken for frames at city prices.
Picture frames furnished to order.
Pictures inserted in Lockets or Pins.

COUNTING HOUSE CALCULATIONS.—A thorough knowledge of this subject is indispensable to the practical man in any business, yet the only Commercial School of the Union which makes this branch a speciality, having a separate apartment in which it is taught with all its abbreviations, by a teacher giving it his entire time, and requiring rigid examination every week, is the Iron City College of Pittsburgh, Pa.

NOTICE.—Notice is hereby given to the Stockholders that the 10th and last instalment on the Capital Stock of the Altoona Gas and Water Company will be due and made payable at the Banking House of Wm. M. Lloyd & Co., on Friday, March 16th, 1860.

☞ Wonder if the man who said he would leave town in case he didn't get a certain number of votes on Friday last, intends to make good his words.

☞ A school house, near Lewistown, was crushed to ruins by a large tree which was blown down by the storm on Thursday evening week.

☞ "Beaten out of his boots," literally and really—one of the independent candidates for Justice of the Peace, on Friday last.

☞ We notice that Thos. S. Reid has revived the *True American* and *Peoples' Press*, and now publishes it at Latrobe. He has reduced it from a seven to a five column paper. A very sensible idea.

☞ The title of L.L. D. has ever been considered one of distinction and honor. Quite a number of persons in this place, had these letters affixed to their names on Friday last.

☞ Telegraphic.—Wm. O. Decker, formerly telegraphic operator at the Huntingdon station, has taken charge of the Hollidaysburg office. He is succeeded by Albert Snyder of Altoona.

☞ A gentleman asked his friend the other day, "How do you like the new minister?"

He replied, "First-rate—never meddles with politics or religion.

☞ E. J. Snoeder, Agent of the Penna. R. R. Co., at Philadelphia, died on Thursday morning last, of paralysis, after a brief and painful illness. In his death the Company loses a valuable officer, and the business community a faithful friend and servant.

☞ The Editorial State Convention which met at Harrisburg, last week, did nothing of any account except attempting to improve the manners, editorially, of those present. There is room for improvement.

☞ The editor of the Erie City *Dispatch* has been sued for libel, in consequence of commenting rather severely upon the actions of the Judge before whom Jake Foust was tried.

☞ In some towns they have got to holding what they call "five-cent sociables"—being an indirect way of promoting benevolence by connecting it with the pleasures of social intercourse, every comer donating five cents to charity.

☞ A wise man will speak well of his neighbor love his wife, and pay for his paper.—Syracuse Journal.

It is certainly wise to pay for ones paper; also, to speak well of a neighbor, but as to loving a *neighbor's wife*—why that is another question.

☞ The right to lay down and operate passenger railroads in the city of New Orleans, has been sold by the city, for thirty years, for the sum of $130,000. Baltimore, it is said, will receive under the present grant, not less than $1,000,000 in thirty years, for the same privilege.

☞ A Due Regard for Safety—It is stated that when the twelve hundred clerks employed in the Bank of England leave the building in the evening, a detachment of troops march in to guard it during the night, although burglars could not penetrate the solid vaults in six weeks

☞ That curious gentleman, Henry Ward Beecher, stated in one of his late lectures, that during the first year of his ministry he was not only pastor but the sexton of the church, filling and lighting the lamps, which he was compelled to buy himself, kindling the fires and sweeping out the church. He did not ring the bell, because he had none to ring. His congregation only consisted of nineteen women, all of whom were in what Mrs. Partington would say "indignant circumstances."

☞ Prentice says: "One of the dullest men we ever saw was named Sharp, one of the stupidest was named Smart, one of the slowest was named Swift, one of the tallest was named Low—and the ex-Governor of Virginia is named Wise."

☞ The New York Sun says: "It is stated that the agent who made up the list of New York merchants for Southern buyers to trade with, pocketed between $3,000 and $4,000 black mail during the operation." The Philadelphia agent has hardly made so much.

☞ "Zip!"—The other day a locomotive and tender passed over the northern railroad, of New Jersey, from Piermont to Jersey City, a distance of twenty-four and a half miles, in twenty minutes. We have not learned how many stout Jerseymen were employed to hold the engineer's hair fast to his head.

☞ Left town—the Junior on the morning after the election, having in his possession a free pass—over the P. R. R. He was on a visit to his friends, and has since returned.

Yes; and the reason of his returning so soon was because he understood the Senior was packing his "kit" preparatory to taking a voyage up—the country.

☞ Death from Fright.—Miss Stowart, a young lady residing in Cumberland county, was so badly frightened a short time ago, by meeting a will-o-the-wisp, that she was taken ill upon reaching home, and in a short time afterward died from the effects of the prostration of her nervous system, superinduced by the fright.

☞ A couple of Kentuckians lately visited Boston, and sat down to dinner at the Revere House. Codfish balls were served at the table, and one of the Kentuckians taking them for "corn-dodgers," proceeded to break one in two. Getting the scent of it he turned to his partner, and remarked in the most solemn manner, "Something dead in that, Tom!"

☞ A Long Line of Railroad.—By the completion of the Mississippi Central Railroad last week, was finished the last link in the continuous line of road from Bangor, Maine, to New Orleans. There are included in this line eighteen different roads, whose aggregate length is 2,394 miles, and whose aggregate cost is ninety-two million seven hundred and eighty-four thousand and eighty-four dollars.

☞ Last week while the youth and beauty of Centerville, Ill., were gathered at a social party at the Centerville Exchange, an old gentleman who was subject to spells of walking in his sleep after going to bed, fell into a slumber (*la somnambula*). He arose from his bed attired in nothing but a shirt, and walked directly among those who were participating in the scenes of festivity. The surprise was said to be more astonishing than agreeable.

☞ An eminent physician of New York got on board one of the city railroad cars a few days since. In a moment he said—"Ladies and gentlemen, there is a malignant case of small pox on board this car—I smell it." In a moment the car was stopped, and the passengers fled, all but one, and she was a woman closely veiled. The doctor asked her to lift her veil. She did, and he beheld a most dreadful case of that foul and dangerous disorder. She said she was on her way to the hospital—her attendant was on the outside.

☞ The Eight K's.—The Hon. Henry Clay was denominated the Eight K's by a coterie of wags in Washington, during his last session of Congress. He acquired this title thus: A gentleman sitting in the gallery of the Senate Chamber, during an interesting debate, wished to point out Mr. Clay to his friend, a foreigner, who sat beside him, without disturbing the house, and wrote upon a card for him thus, "The gentleman to the left of the speaker, in klaret kolored koat with krimson kollar, is Mr. Klay, member of Kongress from Kentucky."

☞ A bill has been introduced into the Legislature, having for its object the securing of a better class of men as engineers for locomotives and stationary engines than those generally employed in this vocation. The bill provides for the erection of a Board of Engineers to examine applicants, two of whom shall be practical machinists, and the third a practical locomotive engineer, to be appointed by the Governor, and hold their term of office for three years. Any person acting as an engineer without a certificate from the board of examiners, is to be subject to a fine of $300, and the corporation employing him, to $200.

☞ This (Wednesday) is the 22d of February, the birthday of Washington. We feel somewhat patriotic—and why shouldn't we, when the glorious stars and stripes are swaying to and fro in front of our window, a military company going through the manual in the next room and our office and doorway perfectly besieged with men and boys of all ages and sizes who insist upon occupy all space and seeing everything in and about the office, which to us, who are crowded with work and much hurried, is a great convenience. We feel patriotic or some other way—guess its some other way.

HOSTETTER'S
STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

☞ Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.

AMERICAN AND FOREIGN
STEREOSCOPIC EMPORIUM.

E. ANTHONY, 308 Broadway, New York.
After May 1st, 1860, at 501 Broadway, two doors from the N. Arcade, Brick.

The Stereoscope is the most instructive, interesting, entertaining, amusing and exciting of modern inventions.

None are too young, none too old, none too intelligent, none too uneducated, to acknowledge its worth and beauty.

No home is complete without it, and it must and will penetrate everywhere.

It presents to your view every part of the world, in all the relief, boldness, perspective, and sharpness of detail, as if you were on the spot.

Photographers are everywhere exploring Europe, Asia, Africa, America, in search of the grand and the beautiful, and the results of their skill are constantly enriching our stock.

We have an immense variety of paper Views of Scenes in Paris, London, England, Scotland, Ireland, Wales, France Belgium, Holland, Switzerland, Spain, The Rhine, Versailles St. Cloud, Fontainebleau, Tuilleries, Italy, Turkey, Egypt Athens, the Holy Land, China, India, Crystal Palace, also Groups Historical, amusing marriage scenes, breakfast scenes, pic-nics, statuary, &c., &c. An exquisite assortment of Illuminated Interiors of Palaces, Churches, and Cathedrals of France, Italy, &c., &c. The effect of these illuminated views is most remarkable.

Every gentleman of wealth and refined taste should have in his drawing-room some of our exquisite views on glass, with a revolving stereoscope, showing 12, 20, 50 or 100 scenes. Nothing can be more fascinating, and one can offer no greater treat to a friend fond of the picturesque and the beautiful.

Anthony's Instantaneous Stereoscopic Views are the latest Photographic wonder. They are taken in the fortieth part of a second, and everything, no matter how rapidly it may be moving, is depicted as sharply and distinctly as if it had been perfectly at rest. This gives an additional value, for to the beauties of inanimate nature it adds the charm of life and motion. The process is a discovery of our own, and being unknown in Europe, we receive from London and Paris large orders for Anthony's Instantaneous Views of American life and scenery.

Among other things we have just published Stereoscopic Illustrations of the Scene of the Fulton Street Prayer Meetings, in which many hearts feel an interest. The particulars of this will be found in our catalogue.

Our Catalogue of subjects and prices will be forwarded to any address on receipt of a stamp.

Parties at a distance sending us $3, $5, $10, $15, $20, or $25, can have a good instrument and such pictures as they may request, sent by Express.

Views alone, (without instrument) can be sent by mail.

Parties who wish to be advised of everything really valuable in the line that comes out, may send us their names to place on record, and we will keep them posted at our own expense.

Men of leisure will find Photography a most fascinating and delightful amusement. We are prepared to fit out amateurs with everything necessary for their success together with instructions "How to take Stereoscopic Pictures." E. ANTHONY.

Importer and Manufacturer of Photographic Materials, Stereoscopes and Stereoscopic Views.

☞ Merchants from every section of the country are respectfully invited to make an examination of our stock, as our discount to the trade will be liberal.

If not in the purchase of just such an article as they wanted, at the remembrance of having looked upon the handsomest stock of Goods ever exhibited in the town.

JACOB SNYDER, TAILOR,
The Hero of One Hundred Fits per Month!

I would respectfully set forth my claim to public attention, as a Fashionable Tailor as follows:

Because I keep an excellent assortment of Cloths, Cassimeres, Vestings and Trimmings, which, when examined, always please.

Because my work is made up in a manner that takes down the country and gives all my customers a city appearance.

Because I am not inferior as a Cutter to the best to be found anywhere.

Because long experience in my business gives me entire control over it and I am not dependant upon any one to fit me out of the coats.

Because I am still on the sunny side of forty, and therefore my taste as a Cutter and workman unimpaired.

Call on me, in the corner room of the "Brant House." Give me a trial and you will go away pleased.
